FABRIC IS A MARRIAGE OF COLOR, STRUCTURE
AND TEXTURE: CLASSIC MATERIALS
ARE REVISITED USING MODERN TECHNIQUES
AND UNITED WITH THE HIGHEST STANDARDS
OF CRAFTSMANSHIP TO ENDOW THE CHOSEN
SPACES WITH A SENSE OF IDENTITY.

Selecting fabrics to upholster a piece of furniture,
or even to enrich a surface, is a choice
that determines the relationship between
the architectural space and the objects within it.
Sophisticated workmanship that enhances
the design of an object and exalts the quality
of its upholstery also serves to emphasize
the feel of the fabric, its texture and the subtle
nuances of color.

The elegance of Nalesso creations, carefully
handcrafted with attention to every detail,
is matched by the vast array of available materials
that enrich each space with personality and
gracefully characterize the furnishings.

THE CHOICE OF FABRIC PROFOUNDLY INFLUENCES
OUR SENSORY AND EMOTIONAL PERCEPTION
OF A SPACE. FOR THIS REASON IT IS IMPORTANT
TO CONSIDER NOT ONLY THE AESTHETIC QUALITIES
OF THE FABRIC, BUT ALSO ITS TACTILE PROPERTIES
AND PERFORMANCE OVER TIME. IN THIS WAY
A SIMPLE FURNISHING BECOMES AN INTRINSIC
PART OF THE DECOR.

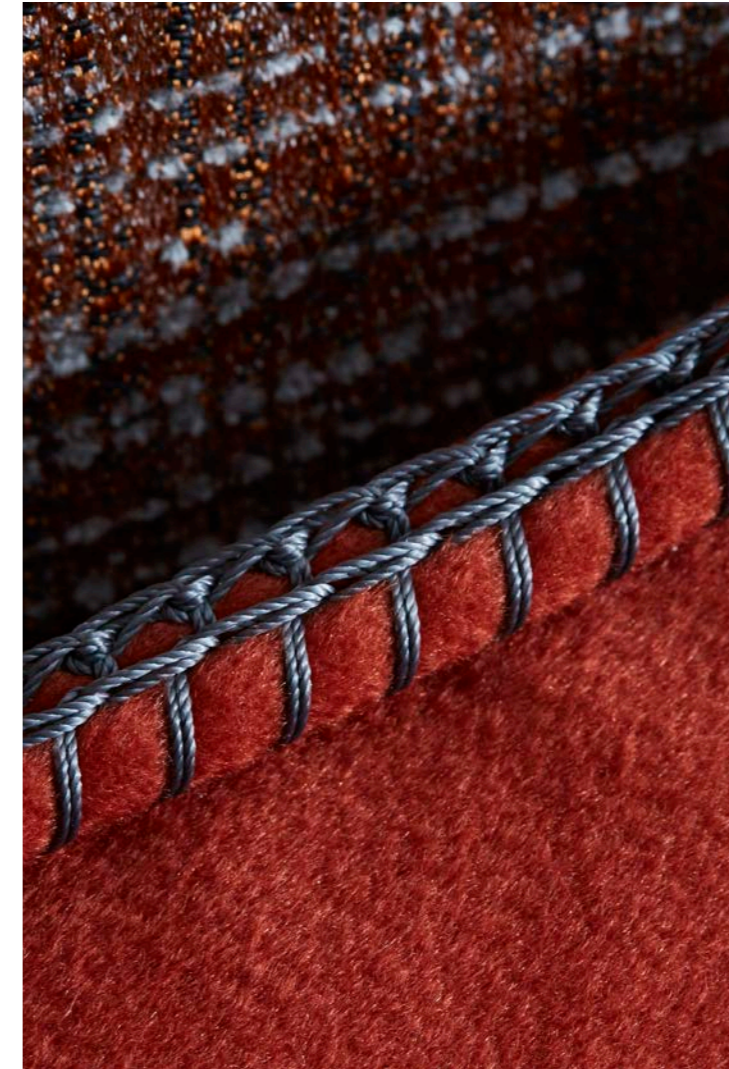

MATELASSÉ

The three-dimensional appearance produced by the quilting effect highlights the stitching and creates volume through the contrast of light and shadow.

DRAPERY,
PLEATING
AND STRETCHING

Handcrafted techniques
enrich the fabric by adding
volume and optical effects.
